THE STORY

The Roberto Coin brand was born in 1996. Its founder, with whom it shares its name, driven by the innate love for the world of art and fashion, decided to leave his successful career as a hotelier to follow a dream and face a new and passionate adventure.

His creativity took shape through the hands of the historical and most renowned Italian jewelry artisans, who brought Roberto Coin's romantic and borderless imagination to life through their skills, telling his story through jewels that truly become works of art.

THE RUBY

Roberto Coin signs his pieces with a small ruby casted inside the jewel, in direct contact with the skin of who wears it. This magical signature, surrounded by an antique halo of legend, represents the message of good wishes that Roberto Coin dedicates to his passionate clientele.*
