EL·E·VATE SERIES

Exploring Authenticity

Discover the intersection of horological mastery, considered design, and exceptional rarity in the El·e·vate Series. Each Certified Pre-Owned timepiece is selected for its cultural significance, impeccable provenance, and mechanical excellence, carrying a story that spans generations, from pivotal historical moments to milestones in craftsmanship.

Defined by originality, condition, and the integrity of its lineage, the collection ranges from discreetly rare references to singular, collector grade discoveries, each chosen with the discernment of a curator and the eye of a connoisseur.

El·e·vate is not a retail event. It is a cultural platform where each watch is presented in a setting designed to showcase both form and legacy, offering an experience as exceptional as the watches themselves. Each edition centers on three pillars: curated pre-owned timepieces of rare craftsmanship and history, iconic hosts who embody mastery in their fields, and intimate access for collectors, tastemakers, and leaders in settings that encourage meaningful dialogue and elevated hospitality.

Experience the El·e·vate Series, a journey exploring authenticity unlike anything else, where each watch tells a story that transcends time.
